MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: Assessment of the Progress of Insurgencies

That's a very useful piece on assessment of the progress of insurgencies. Will you have it extended to cover the 1963 insurgency in Venezuela, the 1968 insurgency in Uruguay, and the insurgency in Argentina in the early 1970s. These may be more relevant to the Central American situation because they involve Cuban support and Latin cultures unlike South Vietnam, Rhodesia, etc.
